CONSIDER AN INVESTMENT IN TRAINING YOUR BRANCH MANAGERS IN OUR BRANCH MANAGER BOOTCAMP!

What does your branch have that alternate branch channels and non bank competitors don't? The branch has you and your people. As the number of branch transactions continues to fall, community banks must reassess the role of the branch manager. Companies must invest in the manager, giving him or her the right people, tools, client goals and sales goals, and then step back and watch the results change into a dynamic source of profitability. This exciting four-part series will focus on the next generation manager who will be leading the transition to client relationship management and to managing an active advisory environment for the client to achieve financial goals.

The next gen manager will be leading this vital transformation. The program will focus on the critical skills and expectations that need to be developed to ensure that the next generation branch manager will exceed expectations and goals set for him or her. Participants will engage in small group breakouts called PODs where they work with branch managers from across the country! They will learn national best practices and expand their network!
